William Fox Presents

"GOLD HEELS."

A Story of the Race Track.

A GOOD COMEDY.

Stony Plain and District.

Judge Emily Murphy, of Edmonton, held Court yesterday in The Sun building. An inspector from the Neglected Children's Dept. had a case in Court concerning four children of a couple living at Holborn. It was decided the children were to become wards of the Department.

Considerable interest is be-

ing taken in the work done by a survey party on the Baseline, east of the Meridian road. Stakes have been driven in along the south side, for about a mile, and much curiosity has been aroused as to what this portends.

John McKinlay, son of Mrs. McKinlay and the late John McKinlay, Spruce Grove, died in an Edmonton hospital early yesterday morning from pneumonia. Deceased had been in the hospital for several weeks, suffering from an attack of anaemia, when pneumonia developed, and he succumbed. The funeral will take place on Sunday next, May 2. Deceased's father, the well-known John McKinlay, was buried May 2, 1925.

LOCAL NEWS.

Mrs. Yeomans, from Vancouver, is visiting in Stony this week with Mrs. Christie, Main street.

Mr and Mrs. Jack Shearer, Calgary, were visiting in Stony this week.

John K. Miller, Millet, was a Sunday visitor in town.

Principal Kibblewhite was taking his exams. last week for his degree.

Miss Agnes Bendofsky, from Bremen, Germany, is visiting here with Mrs. Nick Bauer. On her arrival in Stony Saturday morning she was met at the station by a number of her old time friends.

Mr. Clarence H. J. Lory, who had been attending the O.A.C. at Guelph, Ont., arrived home Saturday morning. Mr. Lory was highly pleased with the course of studies while at the College. The only bar to true enjoyment seems to be the fact, the male studies outnumber the young ladies by four to three.

Members of Meridian Lodge held a session on Tuesday evening.

The sitting of the District Court yesterday in Stony was presided over by Judge Crawford. The case of Hy Henkel, applying for naturalisation papers, was up for a hearing, and the Court adjourned.

After another record run of Seven Straight Nights, the electric light plant closed down about ten o'clock Tuesday evening. The result of the post-mortem has not yet been given out for publication.

The Girls' Club of Stony Plain are putting on a dance Saturday evening, in Wudel's Hall.

A half dozen Ukrainians were in Stony on Friday, having been shipped here by an immigrant society, but the farmer who wanted them could not be located.

RED ROSE "is good COFFEE"

Canada To The Fore

The geographical position of Canada and the United States naturally suggests contrast and invites comparisons, and, as a rule, both at home and abroad, these are usually to the detriment of the Dominion. Careful examination will, however, establish the fact that Canada really presents the stronger and more progressive and stable position.

Studied only superficially, people see Canada with a greater area than the adjoining republic, but with less than a tenth of its population. In fact, they note within an area of a few hundred square miles around and including New York City, a population equal to that of Canada stretching from the Atlantic to the Pacific.

Superficially they see the gigantic industries of the United States, the enormous accumulations of wealth, the rush and bustle of its many large cities, and the boastful assurance of its people who believe, and do not hesitate to vehemently declare, that they are the greatest nation in the world.

In contrast they see Canada with, comparatively speaking, only a fringe of population, with only a few cities of the first rank, not very many multi-millionaires, and the people as a whole, instead of being boastful, rather inclined to belittle themselves and their country.

This is the superficial picture seen by the average person who merely glances at the surface of things and fails to take note of what is much more significant.

Are Canadians slow? Is the Dominion backward in development compared with even the United States? The answer is decidedly in the negative, as a more thorough examination of the growth and development of these two neighboring countries will reveal.

Canada today, with its nine or ten millions of people, is conducting as large a foreign trade as the United States did when it had a population of 78,000,000. On a per capita basis the "slow" Canadians are doing a very much larger foreign business today than the "aggressive" people to the south.

Canada today is producing more wealth from its mines than the United States did with a population of 38,000,000, and the value of Canadian manufacturers at the present time is equal to the output of the United States factories when that country had 50,000,000 people. The export trade alone of Canada today is equal to \$124 per capita, while in the United States at the present time it is only \$37 per capita.

In worth-while education, in medical research work, in the observance of law and order, in the maintenance of proper social conditions in life; in a word, in the development of character which alone can make a nation strong and great, Canada compares more than favorably with its neighbor.

As a result, there is no other country in the world today, regardless of wealth or population, which is so successfully grappling with and solving huge problems, whether financial, economic or political, or which is making quite so substantial gains in its domestic affairs, and in world relations.

The position of Canada is sound. It is strong and growing stronger. It stood the shock of the Great War, and in that titanic struggle discovered itself and its people possessed of amazing virility and undreamt of powers and resources. It took second place to no other country in its contribution to victory. Equally, it sustained and successfully surmounted the many after-war problems, notwithstanding that the burden assumed by the United States was a more baggage to that shouldered by the Dominion.

Why, then, decri the Dominion and make injudicious comparisons with the United States based on a superficial glance at size of population, number and size of cities, or industries, or wealth accumulations? Canada may not at present boast of many huge fortunes, but it can boast of something infinitely better, namely, that of all the go-ahead nations of today, none present a more even distribution of wealth among its people.

Furthermore, it is doubtful if any other country today is so steadily and permanently improving its position, and where the people as a whole are making progress in all things which make life worth while as is true in the case of Canada which is experiencing a real revival following the aftermath of the war.

Canadians need not be boastful, but they can and should be confident and self-reliant. They have every reason and justification for such an attitude towards life and the world.

Saskatchewan Has Most Horses

Saskatchewan now owns approximately one-third of the horses in Canada, having 1,169,963 in a total of 3,651,641. Alberta comes next with 849,919, while Ontario is third with 644,138. Manitoba has 358,839, so that the three prairie provinces have altogether 2,249,739 head of horses, almost two-thirds of the total number in the Dominion. Saskatchewan has an average of about eight horses per farm.

B.C. Has Best Dessert Apple

In the imperial apple show in England, during years 1923 to 1925, Canadian apples won 64 first places, 73 seconds, 24 thirds and 24 special prizes. In 1925 the British Columbia Jonathan was judged to be the best dessert apple in the British empire and the premier cooking apple was the Ontario Rhode Island Greening. In 1923 and 1924, Canadian-grown McIntosh apple was judged to be the best dessert apple in the empire.

South Africa's Public Debt

Is Growing Rapidly and Citizens Are Becoming Alarmed

The public debt of the Union of South Africa is growing so rapidly as to cause alarm among the thoughtful citizens. Since 1911 the debt, which has been increased by £100,095,715, while the amount of debt extinguished has been only £12,533,914. Taking an average for the 15 years since the establishment of the Union, the government has been increasing its debt by over £6,500,000 per annum, but actually decreasing it by only £850,000 a year. The total indebtedness of the Union is now £214,523,653.

COLOR IT NEW WITH "DIAMOND DYES"

Just Dip to Tint or Boil to Dye

Each 16-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silk, ribbons, skirts, waists, dresses, coats, stockings, sweaters, drop waist coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Collects Snowflakes
W. A. Bentley, of Jericho, Vermont, is a snowflake specialist. Bentley says that February storms brought him about 75 new snowflakes, some of them of great beauty and interest.

A BLEMISHED SKIN

Cannot be Relieved by Salves and Ointments

Irritating sores, pimples, eczema, salt rheum and other skin disorders are all signals of distress, telling that your blood is weak or impure. You cannot get rid of eczema and other skin troubles with ointments and outward applications, because the trouble is rooted in the blood and can only be removed by purifying and enriching the blood. Dr. Williams' Pink Pills banish these troubles because they purify and build up the impoverished blood. This has been proved over and over again. Among those who have thus benefited is Mrs. Chris. E. Hummer of Cedar, Alaska, who says: "I was troubled with eczema for years and although I tried many remedies I did not get permanent relief until I used Dr. Williams' Pink Pills. Whenever I did a little work my hands pained me greatly, especially my fingers and joints which were swollen and cracked, so that I could scarcely move them. Finally as the result of a statement I read, I decided to try Dr. Williams' Pink Pills, and I had no more pain taking them very long when I found they were helping me. I then got a dozen boxes, and before they were all gone every trace of the trouble had disappeared. Had I known of Dr. Williams' Pink Pills earlier I might have been spared the suffering and saved the money spent for other treatments that did not relieve me. I hope some other sufferer will benefit by my experience."

If your blood is out of order begin taking Dr. Williams' Pink Pills today and note their speedy beneficial results. Sold by medicine dealers or sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Great Distinction For Canada

Senator Dandurand of Montreal is President of League of Nations

The president of the League of Nations is the Hon. Senator Raoul Dandurand, of Montreal. "The world has no higher pedestal on which to place a man," and is therefore a position of very great distinction not only for the occupant but for the country represented. Senator Dandurand presided at the assembly of 1926 and attended the special session in March of 1926 as one of the Canadian delegates.

No need to suffer with corns, or to run the risk of losing them. Remove them surely and painlessly with Holway's Corn Remover.

Almost unknown and unmarked for many years, the birthplace of Admiral Robert H. Peary, discoverer of the North Pole, now bids fair to be made into a shrine.

Juvenile Swine Competition

C.P.R. Awarding Trophy in Three Western Provinces

Again, this summer the Canadian Pacific Railway is awarding a trophy to the three clubs along its lines in Manitoba, Saskatchewan and Alberta, winning the boys' and girls' swine competitions. In addition, the winning teams will be taken to the 1928 Royal Agricultural Winter Fair at Toronto next November as guests of the Canadian Pacific Railway. These boys' and girls' swine clubs have been co-operatively organized throughout the three western provinces by Provincial and Dominion Governments, and the steps taken by the railroad for the purpose of further encouraging the production of the approved type of hog and so maintaining Canada's position as a hog producer in the markets of the world.

Australian Voters Fined

Obliged to Exercise Franchise Unless Good Excuse Given

Hundreds of voters in South Australia were fined \$250 each for not exercising their powers of franchise. Excuses were accepted in 6,400 cases. A woman who has to stay at home to care for her baby is exempt from punishment under the new Australian Compulsory Voting Law, which provides for fines up to \$10 for electors who do not vote. This ruling has been made in cases growing out of the federal elections held last November.

THREE HAPPY FAMILIES

Among the recent newcomers to the Canadian West are three large British families who arrived at Halifax on February 28th, on board the Cunarder Alauda from Liverpool.

All are bound for Vancouver, and travelled under the special reduced rate arranged for by the Government. Some indication of what they think of the adventure of the voyage, and their delight in coming to Canada, may be gained from their happy interested faces. They included two brothers Ormond from Newport, Monmouth, and their wives and seven children. The other family is from Doncaster, also bound for British Columbia. The photograph shows them on the deck of the Alauda.

The Right Answer.—"Should wives be paid wages?" asked a writer in a recent article in a magazine.

"Certainly!" says a married man of our acquaintance. "What do you think I send my wife out to work for?"

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as admitted, and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

Mr. Whitney, California, 14,501 feet, is the highest point of land in the United States.

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Two New Forest Reserves in B.C.

Official announcement has been made by the provincial minister of lands of the creation of two new forest reserves, totalling more than 2,000 square miles. One of these areas lies north of Burns Lake, in the Babine district, and the other is on the Sonora Islands.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher* on every direction on each package. Physicians everywhere recommend it.

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe—Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets also boxes of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoacetic acid and Salicylic acid (Bayer's Aspirin). While it is well known that Aspirin must be taken with care, to avoid the danger of salicylism, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

Remarkable Man Who Was Friend And Confidant Of Princes And Paupers Alike

Colonel George Henry Ham, familiarly referred to by most people as "George Ham," was not only one of the best known and most popular men in Canada. He also enjoyed the distinction of having probably been called more names than any other citizen of the Dominion. Let us hasten to add the names were friendly and complimentary to the highest degree. They included: "A large body of superlative humanity entirely surrounded by the Canadian Pacific Railway" (New MacTavish); "A great national asset" (Sir Thomas White); "The greatest unprinted wit unbound in Canada" (Collier's Weekly); "Ambassador-in-Chief of the C.P.R.," "The Mark Twain of Canada," and "Canada's Laughing Philosopher." Opinion is unanimous that he deserved them all.

George Henry Ham came most into the public eye through his connection

amalgamated with the Times. From this work he had to retire owing to ill-health and for some years he held various civil offices in Winnipeg and the neighborhood.

When the North-West Rebellion broke out in 1885, George Ham acted as correspondent at the front for the Toronto Mail. He had many exciting experiences, not the least of which was a share in the running of a blockade at Batoche by the steamer North-West, and participated in the success of the white prisoners released by Big Bear after the chief's defeat by the cavalry of Stinger's column at Loon Lake. In 1891 he had the opportunity of his life came. Sir William Van Horne met him at Winnipeg and offered him a position with the title of Travelling Passenger Agent, but with duties similar to those he always carried out for the company. He accepted and thenceforward with but one short break, remained on the payroll of the Canadian Pacific Railway, being steadily advanced, having his official title occasionally changed and the scope of his work widened until at last he real-

Agricultural Outlook

Present Conditions Are Reported To Be Very Favorable In Western Canada

Farmers in the prairie provinces are pleased with present conditions and speak optimistically on the season's outlook, according to a general agricultural survey issued by the Canadian Pacific Railway. A mild winter after several seasons of last autumn and reasonable snowfall since have assured practically all sections in western provinces of sufficient moisture to meet spring requirements. Livestock wintered well, with less loss than the average because of good weather and available supply of feed. Acreages of land prepared closely approximate last year's total for each province, being as follows: Manitoba, this year, 5,349,700, last year, 5,645,000. Saskatchewan, this year, 7,465,485, last year, 8,555,093. Alberta, this year, 8,015,486, last year, 7,721,539. Grand total, this year, 13,825,671; last year, 13,918,572.

Ship Buffalo North

Further Shipment of Walnwright Buffalo to Be Sent North This Year

Another movement of buffalo from Walnwright Park to the far north will take place in June this year, according to Col. J. K. Cornwall, who has returned from Ottawa. The shipment will include 1,400 yearlings, 400 odd two-year-olds and over 100 three-year-olds, the distribution being on the basis of two females to one male. Rangers have reported that the animals now in the northern park are in good condition and wintered well, says Colonel Cornwall.

Manitoba Fisheries

Successful Winter Season Is Reported By Fishermen on Shores of Lake Manitoba

The fishermen along the west shores of Lake Manitoba have just closed one of the most successful seasons in recent years. Though the catch has not been greater than in the average season, the prices secured have possibly been the highest ever received. A conservative estimate of the total shipments for the season from two stations alone—Langruth and Amaranth—places the value at over \$100,000.

Alberta Hogs For Scotland

A dispatch from London quotes a Glasgow report saying that two experimental shipments of Alberta pigs received there have proved highly successful and the outlook is excellent for the opening of a new market for western produce as long as the quality and prices are right.

Why do the tallest people in a crowd always manage to get in front?

The average woman knows how to manage her daughter's husband.

George Ham's colossal success as a Canadian Pacific missionary was due above all to his kindliness, his sense of humor, his ability to tell a good story. Not for nothing did he receive the tributes which were his. Some of his writings—namely his three books, "The New West," "The Fitting of the Gods" and "Romanticism of a Reconciler"—give glimpses of his wit and his graver philosophy.

Canada's Standing Timber

One-third of World's Total Is On Vancouver Island

Canada's timber areas form one of the last great stands of timber in the world today, one-third of the total being on Vancouver Island of exceptionally good quality, chiefly of Douglas fir, hemlock, red cedar, spruce and balsam. The fir is ideal for building purposes and for railway ties for which Great Britain recently placed a large order for the first time.

What Provinces Produce

A survey of agricultural returns reveals that Saskatchewan, in addition to being the leading wheat-producing province of Canada, is also the heaviest producer of oats in the Dominion, and similarly leads in the export of flaxseed. Manitoba leads as a producer of barley and rye. Ontario is the greatest producer of alfalfa, while Quebec leads in the yield of hay and clover.

Says Wheat Pool Has Proven A Big Boon To Farmers Of Saskatchewan

Rural Schools Competitions

Horticultural Council Encourages School Ground Decoration

There can be no good reason why so many of the school grounds in this country should be so bare and unattractive. Many sections have beautiful kinds of trees, many varieties of native shrubbery useful for decorative planting. Even with this ready-at-hand planting material great improvement might be made using only the time of the annual Arbor Day for doing the planting. With but a small amount of money spent on well chosen nursery stock, school grounds may be made not only a delightful spot for the children during the summer months, but an object lesson and an incentive to improve the home surrounding on every farm. The Canadian Horticultural Council, conscious of the need for a more general beautification of school grounds, has organized competitions between rural schools in each province and provides a beautiful silver cup as a trophy to be worked for. Provincial committees have this work in charge. No entry fees are asked but competing schools have only to make known their desire to enter and to supply a photograph of the grounds as they appear at the beginning of the season. This photograph is to be compared in the autumn with one taken at that time showing the work that has been accomplished. Entries will be received and further information supplied by L. F. Burrows, secretary of the Canadian Horticultural Council at Ottawa.

Homestead Entries

Patents Granted For 622,762 Acres in Last Fiscal Year

The number of letters patent issued during the last fiscal year for homestead lands in Western Canada totaled 1,204, covering an area of 622,762 acres. In the same year 3,653 new homestead entries were granted aggregating an approximate area of 581,480 acres. In addition 581 soldier grant entries were made during the year, totalling an approximate area of 93,440 acres.

New Experimental Stations

Two experimental stations will be established this year by the federal department of agriculture, one in Northern Manitoba and the other in Northern Saskatchewan. The Manitoba station will be located in the Dauphin district and the other in the vicinity of Tisdale, Saskatchewan.

Sensible men and women are always dead to unjust criticism.

Discussing the benefits Saskatchewan has derived from the operation of the Wheat Pool, President Gardiner, at the annual banquet of the Saskatchewan Land Mortgage Companies' Association at Regina, stated that President McPherson would be the last to claim that the method of marketing had established itself beyond a possibility of a doubt. At the same time he thought that every financial institution, every loan company, every implement dealer, and every business man in Saskatchewan, at least outside of the grain trade, would say that the province had benefited to date from the existence of the pool.

"It is not necessary to prove that we have received more for our wheat in order to establish that fact," he added. "There are benefits which are apparent to all. The greatest drawback to sound development of our chief industry in this province has been the necessity for marketing 75 per cent of our wheat in three months. The objectionable features of the Grain Exchange, unnecessarily high freight rates, and relatively high interest rates, can be to a considerable extent, traced back to this one fact."

"Millions upon millions of bushels of wheat, upon which payment in full had been made to the farmer, necessitated futures, hedging and the possibility of loss to the middle man, which brought about the very nature of the wheat trade. Having 25,000 to 30,000 box cars with 400 or 500 engines standing idle on our railways for the greater part of the year to handle the rush of wheat in three months in the fall is bound to raise freight rates on our wheat and other commodities. Railway companies cannot pay the interest on the capital involved without additional freight rates. Human nature is the same among farmers as among any other class of our people. Money burns a hole in the pockets of most of us. The man who secures all his earnings for the year at one time is liable to find himself in a few months short of cash and under the necessity of going to the bank to borrow at a high rate of interest to carry him over to next crop. Why a high rate of interest? Because neither the banker nor myself knows whether the Lord is going to give me a crop or not, and the element of risk is so high that my interest has been high."

"The pool has within its power to distribute the marketing of our wheat over twelve months, to pass on any risk involved in doing so to the farmer who produced the wheat, and thus avoid the necessity for futures and hedging, which has been of necessity part of the Grain Exchange method; to spread the payment for our wheat over the whole year, thus partly removing the necessity for short time loans, and putting us in a position where we should be able to secure money in long time loans at a lower rate of interest. The farmers of this province, through the pooling method, should find it possible to finance this year on what they grew last year; and if they do that the Wheat Pool will prove itself the greatest influence for good that has come to agriculture since the opening of the west."

His First Glimpse

Strolling along the quays of New York harbor, an Irishman came across the wooden barricade which is placed around the enclosure where emigrants suspected of suffering from contagious diseases are isolated. "Phrat's this boarding for?" he inquired of a by-stander.

"Oh," was the reply, "that's to keep out fever and things like that, you know."

"Tadade," said Pat. "Olive often heard of the board of health, but it's the first time, O'ne seen it!"

In Champion Egg Eater

To win a \$10 bet, Mr. Tracy, agent of Washington, Harvard avenue, ate 48 soft-boiled eggs for breakfast in a restaurant at Cambridge.

More than 300 fellow students, who had gathered to witness the feat, cheered as Ansell, aged 18, ate the 12th, 24th, 36th and 48th eggs. Ansell was allotted 35 minutes to complete his demonstration, but finished handsomely in 41 minutes flat.

Tiny Traveller Terror of Ticketmen

Julith Mary Branch, aged 3½, of five weeks old when she journeyed from Sydney to Melbourne, then to Adelaide and back to Sydney again, a little trip of 2,950 miles. But if the ticketmen please her by when it comes to taking up fares, she always stops for a little bit with Miss Branch, for her regular smile says she was all over the world and everyone is glad to make her acquaintance.

Married women, travelling alone to Cuba will have to show authorization from their husbands before they can secure admission.

A reduction in the prices of automobile tires is announced for Great Britain. The reduction amounts to an average of ten per cent. and has become effective.

About the only place in the world where the birth rate has been increasing much lately is the South Sea Islands, the League of Nations has determined.

"Jiale" is the name London has devised for new two-wheeled taxicabs, which are to circulate in London streets in an effort to combat high prices charged by taxicabs which seat four passengers.

Blue sky legislation applicable to companies incorporated under Dominion charter will not likely, it is understood, be introduced during the present session of parliament. The prevailing opinion appears to favor calling of a conference with representatives of all provincial governments before any steps are taken in this matter.

A MEDICINE THAT ALL MOTHERS PRAISE

Baby's Own Tablets Banish Babyhood and Childhood Ailments

Mrs. H. (Oakes, Sarnia, Ont., says: "I have used Baby's Own Tablets in my home for the past fifteen years and I believe the good health my children enjoy is due entirely to this medicine. The Tablets are helpful at teething time; relieve colds and are always beneficial in the minor ailments of little ones. I have recommended Baby's Own Tablets to other mothers whose experience with them has been as satisfactory as my own." Baby's Own Tablets do one thing only, but they do it well. They act as a gentle laxative which thoroughly regulates the bowels and sweetens the stomach, thus banishing constipation and indigestion; colds and simple fevers and turn the sick, sticky baby into a well, happy, laughing child. Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Colorado parks department reports that 264,910 people visited the grave of Buffalo Bill on Lookout Mountain last year.

An Oil of Merit—Dr. Thomas' Eucalyptic Oil is not a jumble of medicine at substance thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils for application to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

A man's will goes into effect after death, but a woman's will is in effect during life.

Many mothers can testify to the virtue of Mother Graves Worm Expeller, because they know from experience how useful it is.

Most people call an aeroplane "an" instead of "she." You see, men keep it under control most of the time.

ON THE AIR

What is Doing in the World of Radio

Next to a telephone that will not answer is a radio machine that registers everything but the programme that is struggling to present itself.

The man who says that he caught a fifteen-pound bass last summer is now telling that his radio set got Europe nearly every night.

Heart-beats that may be heard across the continent today are possible by the means of a new "radio stethoscope," recently experimented on at the University of Minnesota. Anthony Zeleny, professor of physics at the university, announces:

A run-down "B" battery may cause crackling sounds that cannot be distinguished from some forms of static. The quickest way to determine between them is to disconnect aerial and ground while your set is in operation. If the noise stops, your batteries are not causing it.

Sour Stomach Risings Subdued by "Nervine"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nervine will surprise you. Take it in sweetened water, and almost immediately you feel better. Nervine brings up the gas caused by fermenting food, and relieves that distressing feeling of the stomach. When colic or cramps strike you at night, Nervine is a sure relief. For general use in the family, Nervine is gentile, always keeps truly Nervine on hand. 35c at all dealers.

ECLIPSE FASHIONS
Exclusive Patterns
by *Shirley Cope*

Smart For the School Girl

A very practical style of dress for school wear is the model shown here. Ample freedom for play is provided by the deep inverted plait in the front of the skirt. A vestee of plain, contrasting color material is set onto the dress with three rows of machine stitching. The same stitching outlines the edge of the boyish collar. The back is plain and the long sleeves are marked for a shorter length. Duro singham, linen, cotton broadcloth, or figured rayon would be suitable washable materials for this frock. No. 1303, which is in sizes 8, 10, 12, and 14 years. Size 8 years requires 2½ yards 32-inch material; short sleeves ¾ yard less material. Price 20 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with cut patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Minard's Liniment King of Pain

Food! Felt Like

Vinegar in Stomach

Brooklyn, N. Y. Mr. A. Arstan says: "No matter what I ate, it seemed to turn to a vinegar-like acid as soon as it went down. I was bloated, belched gas, and acids rose in my mouth. Appetite was poor. I took Carter's Little Liver Pills for just one week. This certainly was a fine remedy for me."

Treat a constipated condition in a sensible manner, cause the bowels to move daily free from pain. Carter's Little Liver Pills are for every member of the family. Small, sugar coated, easy to take.

Druggists, 25 & 75c packages.

Crafts New Eyes

Scientist Claims to Have Succeeded in Experiments With Animals

After several years' experiments, Professor E. Guyot, of the University of Geneva, has succeeded in creating sight in animals, according to Popular Science Monthly. He hopes soon to extend his work to human beings.

In his experiments Professor Guyot cut those irons as his subjects. He cut their optic nerves and extracted their eyes. Then, after a certain period, he grafted new eyes in the orbits of the original ones. In eighty-four cases he has worked on during the past eleven months only three have been complete successes, but these prove conclusively, he claims, that he is on the right track.

Recommended Them To Scores of Sufferers

Manitoba Man Used Dodd's Kidney Pills for Aching Back and Bladder Trouble

Mr. G. I. England Received Great Relief and is Now Very Enthusiastic About Dodd's Kidney Pills. Desford, Man.—(Special).—"I was troubled with my kidneys," states Mr. G. I. England, a well-known resident of this place. "I used to suffer with an aching back and can assure you I found your Dodd's Kidney Pills gave me great relief. I have taken them for ten years and have recommended them to scores of sufferers."

It is noticeable that people who have used Dodd's Kidney Pills are always enthusiastic in recommending them to others. That is how Dodd's Kidney Pills have made and maintained their reputation. Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in shape to strain all the impurities out of the system. Dodd's Kidney Pills will enrich your blood and feed your nerves, and every dose you take will give you new store of health and energy.

Orient Likes Canadian Wheat

Remarkable increase in Oriental demand for Canadian wheat is reflected in the regular statistical report of the Vancouver Merchants' Exchange. To the end of February the Orient took 16,691,758 bushels, as against 3,012,649 bushels in 1923-24. This increase is due to growing favor of Canadian hard wheat and to the fact that prices were right this season.

She Couldn't Sleep Heart Was So Bad

Mrs. J. D. McCulloch, Charlotte, P.E.I., writes:—"About a year ago I was greatly troubled with my heart."

I could not sleep at night, and I could see everything in the room moving, and would have to turn on the lights before I could get to sleep.

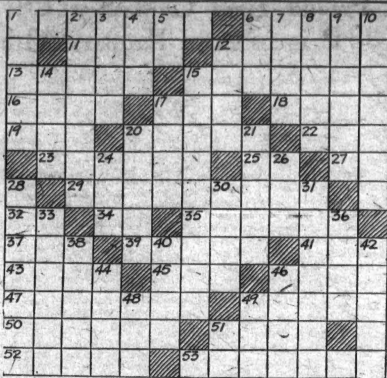

After having read of you

I took several boxes of them, and can now get a full night's sleep without any trouble, and feel like a new man.

H. & N. Pills have been on the market for the past 68 years; all dealers sell them; get only by Dr. T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

MAY 2

GOD'S COVENANT WITH NOAH

Golden Text: I do set my bow in the cloud, and it shall be for a token of a covenant between me and the earth. Genesis 9:12.

Lesson: Genesis 5:28 to 9:29.

Devotional Reading: Psalm 89:3-16.

Explanations and Comments

1. Antediluvian Wickedness and Its Consequences—Read the account of stories of the Deluge, under the topic, "Light from Archaeology," and then the Teacher-Training Thought, page 168. The story explains an unusual flood as caused by God's wrath at the wickedness of the human race and his consequent desire to destroy all mankind. Noah and his family alone excepted. The conception of an angry God who repeated having man was natural to man when first groping after a knowledge of the true God.

11. Building and Entering the Ark. 6:13 to 1:16. Amidst all the wickedness, Noah lived a blameless life. "God is in a special manner pleased with those that are good in bad times and places. Noah was therefore industriously righteous, because he was so in that wicked and adulterous generation" (Matthew Henry). By faith, Noah, being warned of God concerning things not seen as yet, moved with godly fear, prepared an ark to the saving of his house. Hebrews 11:7. The ark was built of cypress and coated with pitch; in shape it was like a chest with flat bottom, four hundred and fifty feet long, seventy-five feet broad, and forty-five feet in depth. All around just under the roof a space was left for men and animals, the roof supported by posts. Its three decks were divided into compartments.

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering from the three thousand will be in the Denison and the agreement will have one more year to run.

British Families Coming

Twelve hundred British families are expected this year under the 3,000 family migration scheme, now in operation between Canada and Great Britain. The original agreement extends over three years, and if the anticipated 1,500 families arrive in 1926, one-half of the three thousand will be in the Denison and the agreement will have one more year to run.

Use Minard's Liniment in the stables.

Answer to Last Week's Puzzle

MANAGE	TALION
ERODES	OVERDO
THROAT	NINGEN
ABBS	RAPID BOA
LIAR	TRICK BANG
SCRAPE	SPARSE
DO	IN
TRAITS	HEALER
RENO	CRE CAVE
INN	SLIDE
BE ALA	DIPED
AGARIC	ERASE
LEGATE	PERIDE

"Can you drive with one hand?" asked the girl in a gentle voice.

"You bet, I can," replied the young man, eagerly.

"Then have an apple," answered the sophisticated young creature.

CHARACTER TELLS THE STORY!

People throughout this country give more thought to hygiene and to the purity of remedies on the market, but no one doubts the purity of Doctor Pierce's vegetable medicines, for they have been so favorably known for many years that everyone knows they are just what they are claimed to be. These medicines are the result of long research by a well-known physician, Dr. J. C. Pierce, M. D., who compounded them from health-giving herbs and roots long used in sickness by the Indians. Dr. Pierce's reputation as a leading and honored citizen of Buffalo, is a sufficient guarantee for the purity of that splendid tonic and blood purifier, the Golden Medical Discovery, and the equally fine nerve tonic and system builder for women's ailments, Dr. Pierce's Favorite Prescription. Send line for trial packets to Dr. Pierce's Laboratory in Bridgeport, Ontario.

OPPOSITE VIEWS ARE AIRED IN BUDGET DEBATE

Ottawa.—Continuing the budget debate, Mr. Maclellan stated that the year's financial statement was noted for its announcement of a reduction in taxation and increase in trade and improvement in the Canadian National Railways.

Another feature of the budget which will be popular, said Mr. Maclellan, was the return to penny postage. Canada was a pioneer in the experiment of penny postage, back in the days when Sir William Mulock was postmaster-general. The experiment had proved very profitable then, and Mr. Maclellan thought it very fitting that Canada should go back to the two-cent stamp.

In spite of all the smuggling which was said to be going on, Mr. Maclellan drew attention to the fact that there had been a considerable increase in the net sum collected on customs duties. There would be a certain amount of smuggling in any case, he thought, and the return of the customs department showed a very satisfactory increase.

Mr. Maclellan supported the reduction in the tariff on motor cars. The nearer Canadian motor cars were made to those in the United States the greater would be the property of the automobile industry in this country. This was due to the fact, he stated, that reduction in the price of cars would increase the number sold. Mr. Maclellan expressed the view that the government's course was, being governed by the Progressive group. The speech from the throne had stated that the tariff board would be constituted for the consideration of tariff matters; yet the government had in its budget taken a step in the opposite direction.

Canada should oppose United States competition with an adequate protective tariff. "I do not say build a tariff wall brick for brick with that of the United States," said Mr. Maclellan. "But I say that we should build a tariff wall adequate to stop their goods from coming into Canada in competition with our own products."

British Alarmed By German-Soviet Pact

Believe Berlin Is Being Fooled By Soviet Minister

London.—The British, who had viewed the negotiations for the Russian-German pact with complacency, now are becoming alarmed, not because they distrust the Germans, but because information has come to them which indicates that while the Germans are honest, they possibly are being fooled by Foreign Minister Tschitcherine, who is regarded as the cleverest diplomat in Europe.

British diplomats are convinced that Russia is meditating an attack on Rumania, which generally is admitted to be more Russian than Rumanian, and to damp down the discontent at home by what the Kryn in politicians hope will be a victorious foreign war. The Red army is reported to be getting restless and untrustworthy and the Soviet leaders feel that they must give it an occupation in order to render it innocuous.

Created A Marquis

London.—A marquessate, in recognition of the completion of his work during his term of office as viceroy of India, was bestowed upon the Earl of Reading by King George. The earl, who is just home from India, went to Windsor to receive the King, the marquessate being bestowed in the course of the audience.

Spitzbergen Ready For Norge

Leningrad.—Lieutenant Riser-Larsen, of the Amundsen-Bjornniste Polar expedition, received a message from Capt. Abundsen, at Spitzbergen, saying all preparations have been finished there for receiving the dirigible Norge, in which it is hoped to fly over the Pole.

Devil's Gate Dam, near Pasadena, California, has a 20-foot concrete wall built on the top.

W. N. U. 1926

Favors Limitation Of Armaments

U. S. Would Welcome Completion of Work of 1921 Conference Says Kellogg

New York.—United States policies on outstanding international issues were barred by Frank B. Kellogg, secretary of state, in an address at the annual luncheon of the Associated Press.

On the question of armament limitation, the secretary said the United States Government would "welcome an agreement which would complete the work begun in Washington" at the 1921 conference.

Secretary Kellogg pledged in this connection that the delegates from the United States to the preliminary armament conference in Geneva would "use their influence in favor of projects which may be practical in their application and realizable in their development."

He reminded the audience, particularly the hundred Latin-American journalists present as guests of the Associated Press, that the true policy of this country contained "no desire for imperialism, acquisition of territory, political or economical domination."

Protests Against Delay In Inquiry

D. F. Kellner Wants Earlier Probe in Athabasca Vote

Edmonton.—Mr. Justice Beek will not hold an inquiry before next September in alleged corrupt practices in the federal election of Athabasca during the last Dominion election, as he is reported to have informed a delegation of the United Farmers of Alberta that waited upon him recently.

This was the information given by delegates who were present at the meeting in the city council chamber for the return of the delegation, which was composed of C. Burnell, C. Brumby and W. G. Giddard. A strong protest against this delay was voiced. By D. F. Kellner, defeated Progressive candidate for Athabasca, who stated that many of the witnesses will be out of the country if the probe is not held before September.

He has intimated steps will be taken to bring the matter before the Ottawa authorities.

Suggests Amendment Of Naturalization Act

Miss MacPhail Would Have Canadian Girls Marrying Aliens Retain British Citizenship

Ottawa.—Miss Alice MacPhail proposes to move in the House of Commons that the Canadian girl who marries an alien and continues to reside in Canada shall not lose her British citizenship by the mere act of marriage. Miss MacPhail's proposal is that the "Naturalization Act" be amended to provide that a woman of British nationality residing in Canada should not lose or be deemed to lose this by her act of marriage with an alien, but that it should be open to her to make declaration of allegiance if she should so desire. Miss MacPhail's resolution, although not limited thereto, will, on account of their number, give particular reference to marriages between Canadian girls and Americans.

Death Penalty To Remain

Move of Labor Party Is Defeated in British House of Commons

London.—The House of Commons in committee rejected by 268 to 122 the new official Labor clause of the army and air force annual bill, providing for the abolition of the death penalty in cases of cowardice and deserting while on active service.

The house also rejected, by a vote of 283 to 102 the Labor clause which would prohibit the use of troops in connection with trade disputes except when a proclamation declaring that a state of emergency existed was issued.

Dangerous Floods In Arabia

London.—A Reuters' dispatch from Cairo, Egypt, reports disastrous floods in Southwestern Arabia. A traveller arriving from Yemen said the flood waters, aided up by cloudbursts at Yemen and Wadi Mor, near Lohela, had washed away 700 houses.

MAY NOW EXTEND SEARCH LIMIT FOR RUM RUNNERS

Ottawa.—Extension of the limit of search to 30 or 35 miles from the United States shore is mentioned as a possibility in the correspondence between the British ambassador at Washington and the Governor-General of Canada. This correspondence was tabled in the House of Commons in reply to a question concerning seizure of the Canadian schooner Pictonian off Long Island, in October, 1924.

Sir E. E. Howard wrote Baron Darg on October 16, 1924, concerning the seizure of the liquor-laden schooner. One paragraph of his letter reads:

"It was pointed out by the assistant United States Attorney that the Pictonian was captured 14 miles from the shore of evidence that she was reached by the motor boat K14522 in less than one hour's run, and the United States attorney stated he believed that in the case of fast motor boats engaged in the liquor smuggling traffic, the limit of search might be as far out as 30 or 35 miles."

The style deals with the ownership of the Pictonian rather than with her adventure, but a newspaper clipping included—showing that forfeiture to the United States Government was ordered on January 25 last by a judge in Brooklyn, N.Y.

The Pictonian was seized by the United States Government cutter Seneca with 400 cases of liquor aboard and an empty motor boat alongside.

Willington May Be Next Governor-General

Will At Least Receive Offer Canadian Press Informed

London.—This Canadian Press has been authoritatively informed that Viscount Willington at least will receive the offer of the Governor-Generalship of Canada.

Lord Willington was on his way to China at the time. He was at the head of the Chinese indemnity fund committee which was going to China to arrange for the return by the British Government of the Boxer indemnity amounting to some \$11,000,000.

Henry Ford Is a Free Trader

Detroit, Mich.—Henry Ford, Detroit industrial magnate, stated his belief that the industry of Ford City, Ont., would "run better" if there were no tariff whatever. Mr. Ford declared himself to be a free trader. The magnate was interviewed on the Windsor ferry as he was returning from an inspection trip of the Ford City plant.

Lord Allenby Leaves for Home

Lord Edmund Allenby, conqueror of Palestine, accompanied by Lady Allenby, is shown above with Commander E. Landy, leaving Canada on the Canadian Pacific liner Montrose. The famous soldier has just completed a tour of Canada during which he was received by the most prominent residents of almost every large city in the Dominion.

The "Bull of Bashan" delivered addresses throughout the country telling of the conquest of the Holy Land and stressing the importance of the capture of Palestine in helping win the Great War.

Will Lead Liberals

Joseph T. Shaw of Calgary Chosen Chief of Party in Alberta

Edmonton.—Practically unanimously refusing a resolution made on the floor of the convention by Ed. F. Ryan, Calgary lawyer, that nomination of a provincial Liberal leader be not made until after the provincial general election, Alberta Liberals in executive meeting gave enthusiastic endorsement to the only name placed in nomination, that of Joseph T. Shaw of Calgary.

The choice was made by executives representing every provincial constituency, and as explained by Hon. W. O. Bughnahan, who took the chair at the opening of the convention, this form of procedure had been adopted following the system in Saskatchewan when a successor to Hon. C. A. Dunning was named.

One hundred and twenty-five delegates were present at the convention.

At the afternoon session, Joseph T. Shaw, newly elected leader, launched an attack upon the Farmer Government of Alberta, terming it one of inaction.

Esquimo Accused Of Murder

Edmonton Judge Leaving About June 1 To Preside Over Hearing

Edmonton.—Judge Dubie, who has already had connection with the trials of Eskimos in the Far North, expects to leave for Aklayik about June 1 to preside over a hearing resulting from another killing in the northern territories.

An Eskimo named Ikayewa will be the accused, having been apprehended by the Royal Canadian Mounted Police detachment at Tree River in January, 1925, for the shooting of a native, Ukusak, on Parry River in the summer of 1924.

Two lawyers, one for the prosecution and one for the defence, and the judge's personal secretary, also will make the trip.

Canadian Doctor Honored

Montreal.—Dr. D. M. Morrison has been awarded the Ramsay Memorial fellowship by the Research Council of Canada. Dr. Morrison is now carrying on research work with Sir Ernest Rutherford in the Cavendish Laboratory at Cambridge. He is a native of British Columbia, and a graduate in arts of the University of British Columbia.

Veteran C.P.R. Operator Dead

Ottawa.—David Robertson, aged 55, who flashed the first message across the Canadian Pacific Railway Company's coast-to-coast telegraph wire when it was originally constructed, dropped dead here. For a number of years he was chief operator for the C.P.R. here.

RESUME WORK OF CONSTRUCTION ON H. B. ROAD

Ottawa.—The fact that parliament has already appropriated one-twelfth of the total estimate of \$5,000,000 toward the completion of the Hudson's Bay Railway, has led to a start being made, already, upon the operations. One-twelfth of the estimate amounts to \$250,000, and at Le Pas, operations are now under way for putting the existing line in shape and for the additional construction which will be necessary. When Hon. C. A. Dunning became minister of railways he spoke at Regina and declared that one of his main objectives was the completion of the Hudson's Bay Railway. An appropriation of three million dollars appears in the estimates this year; and with what has been voted already, the minister is in a position to go ahead with fairly extensive operations in anticipation that the whole route will be ratified by parliament. The work of placing the existing line in shape and of continuing the construction will be carried forward under the direction of the Canadian National Railways. There is now no doubt that the whole undertaking will be carried forward to completion and not in any hasty manner but with all expedition possible.

Refuse To Legalize Betting

Bill Introduced in British House of Commons Is Defeated

London.—The House of Commons rejected the bill intended to legalize betting and license bookmakers, 125 to 94. The rejection of the bill was moved by Edwin Scrymgeour, prohibition member for Dundee.

The question of legalizing betting and putting a tax on it has been under consideration for a long time, and recently it was reported that Winston Churchill, chancellor of the exchequer, casting around for some new source of revenue to aid the budget, had lighted upon betting as the most fruitful possibility for a new tax.

The church people have been strongly opposed to such a measure, as well as several members of the cabinet, some of whom Mr. Churchill was said to have won over to his side.

Details Of Chinese Massacre Revealed

Only Five of Cabinet Office Guard Allowed to Live

Shanghai.—Only five men out of 400 comprising the guard of the cabinet office escaped death at the hands of the Kuomintang troops before they evacuated Peking, says The North China Daily News.

The newspaper calls it a cold-blooded massacre.

It says the extremists persuaded their commanders to destroy all the guard of the cabinet office, which fired on students during a demonstration last month. The men were taken beyond the yellow fence and machine guns were opened upon them only five escaped alive.

Cost Of Completing Hudson Bay Railway

Figures Given to House by Sir Henry Thornton

Ottawa.—The Hudson Bay Railway will cost \$2,000,000 to complete and a further \$4,250,000 to put into operation. This is the opinion of officers of the Canadian National Railways, transmitted to the House of Commons by Sir Henry Thornton's office, in reply to a question in the House of Commons, and tabled in that chamber.

Grading was completed some years ago, but by now it requires considerable repairs, was one of the notations on the file.

Will Enter Politics

Mexico City.—All Roman Catholics are urged actively to participate in Mexican politics to control presidential, congressional and municipal elections as an effective means to bring about religious freedom in Mexico. The advice is contained in a pastoral letter signed by all the archbishops and bishops of the country.

Ancient Bogey Laid to Rest

**Canadian Pacific President Outlines His Company's Attitude to Railway
Situation in Important Statement—Believes Improvement in
National Conditions Will Provide Best Solutions of
Railway Problems.**

E. W. Beatty, K.C.
In an address to the Montreal
Canadian Club recently, E. W.
Beatty, Chairman and Presi-
dent of the Canadian Pacific,
outlined the railway situa-
tion. Mr. Beatty briefly
outlined the railway
history. When ambitious
railway projects set afoot after
the completion of the Canadian Pa-
cific had failed because of alleged
national or commercial necessities
and were taken over by the Govern-
ment to prevent their physical dis-
solution and to the credit of the
Canadian and Canadian institutions, the
action of the Government was vari-
ously viewed. Some opposed it fear-
ing the consequences of the exorci-
sm of the government into busi-
ness; others approved because they
regarded Government ownership as
a panacea for most of our transpor-
tation and economic ills.

Never Wasted C. P. R.
The successive steps towards the
government acquisition of these prop-
erty was justified by some who fa-
vored it by the policy of the Canadian
Pacific Railway Company. When the
absorption of the Canadian
Northern was proposed the people
were told that the Canadian Pacific
had actually made a very favorable
bid for them. "The Canadian Pa-
cific," said Mr. Beatty, "were not
anxious to acquire them and had
made no offer of any kind for them.
Parliament was later urged to sup-
port government acquisition of the
Grand Trunk party of the ground
that otherwise those roads would be
"gobbled up by the C. P. R."

"There existed objections that ren-
dered that possibility almost ridi-
culously remote. There existed by
statute absolute prohibition against
any arrangement of amalgamation.
Duplication by the Grand Trunk of
then existing Canadian Pacific facili-
ties rendered the acquisition unne-
cessary and unwise. The Grand
Trunk could not be divorced from
the Grand Trunk Pacific with its
enormous liabilities, which, I may
say, no corporation in Canada could
think of assuming even if able to do
so. Lastly, the acquisition of the
Grand Trunk had never been sug-
gested to the Canadian Pacific or by the
character of ownership of the
Canadian Pacific, and had never been
considered or contemplated in any
way or by any means, direct or in-
direct. It was the old familiar bogey,
namely, that of securing an unjusti-
fied secondary purchaser in order to
make the purchase more attractive
to those who had some doubt as to
whether or not they wished to make
the purchase at all."

"Methods have not changed and
periodically come rumours of con-

spiracy to take over or in some way
injure the property of our competi-
tors and that these are encouraged
by those friendly to the Canadian
Pacific. So long as there is gov-
ernment ownership, political consid-
erations will be involved, and where
there are political considerations
there are many rumours and much
propaganda and publicity. The
changes which have reduced Canada's
railways to two large systems, one
governmentally and the other pri-
vately owned and operated, have in-
terfered to a greater extent politi-
cal considerations as part of business
administration. They naturally in-
terest men in public life and tax-
payers, the former providing the
necessary funds and the latter pay-
ing the bills.

Private Initiative Limited.
"The Canadian Pacific pays in Fed-
eral taxes \$5,479 per day for the pri-
vilege of engaging in railway compe-
tition with the government of its own
country. The future upon which the
progress of this country has hereto-
fore depended are those upon
which our future prosperity will de-
pend. Private initiative and the
effort of corporations, groups
of men and individuals are what
"will make for Canada's commercial
prosperity and economic stability. I
believe with the late Sir John Har-
ding that there should be less govern-
ment in business and more business
in government. And so, when you
turn your minds to this railway prob-
lem, remember that public opinion
is often misinformed because the
facts are not in the possession of
those who advocate one theory or
another; that where you have two
houses and not enough guests to fill
both there is bound to be some waste
due to duplication of facilities; that
what companies are in competition,
each must preserve and expand its
business else it will die; and that
healthy competition is good provided
the minimum of waste is secured by
economical administration."

"The burden of the country are
heavy and should be reduced so far
as reasonable and with expedition.
The Government is in competition
to give the best service possible, and
to show its faith to the country by
reasonable and expedient methods.
Where public necessities require."
"Nothing is more important to the
character of ownership of the Cana-
dian Pacific than the rate of interest.
Pressure is periodically brought to
bear looking to the granting of rate
concessions on ground of national or
local interest, and I fear many Cana-
dians feel that a difference in the
character of ownership of the Cana-
dian Pacific, and the rate of interest
paying rates is their reasonableness
and freedom from unjust discrimi-
nation. These fundamentals do not
change with the character of the
ownership of the two principal com-
panies."

"I hope I will not live to see the
day when Canadian railways are na-

Here and There

Charles Reddock, houseowner of
Calgary, Alta., has undertaken what
seemed to be an impossible task of
moving sixty houses over mountain
roads from Bankhead to Banff. In
forty days he moved thirty-eight of
the houses six and a half miles.

Exports from Canada for the
month of February were \$37,512,147
while imports were recorded at \$70-
908,980 for the same period. For
the twelve months ending February
28 last, exports reached a value of
\$1,897,744,088 while imports were
fixed at \$911,107,065.

One of the largest business trans-
actions recorded in the West took
place here on March 11th last when
the Canadian Co-operative Wheat
Producers mailed approximately
190,000 cheques amounting to a
total of \$37,000,000, to members of
the wheat pool.

The rapid development of the fish
oil and fish products industry on the
Pacific coast this year may necessi-
tate the fitting up of three coastwise
vessels as tankers to carry oil from
the reduction plants. Last year one
vessel found this method successful.
Fish reduction plants, it is es-
timated, will produce 10,000 tons of
fish meal and fertilizer this year.

President E. W. Beatty, of the
Canadian Pacific Railway, has asked
approval of the shareholders for the
construction of two new passenger
vessels of the type of "Montcalm,"
"Montclair," and "Montrose," to be
available for service in May, 1927,
and five freight vessels of 3,500 tons,
with a sea speed of about 14
knots, also to be ready for 1927.

During the past season 1,235
moose and 3,568 deer were killed in
New Brunswick. Of the former 297
fell to the guns of non-resident hun-
ters and 617 of the latter. In the
same year animals killed for fur in-
cluded 1,587 racoon; 6,017 skunk;
18,814 muskrat; 5,410 foxes; 9,470
coyotes; 177 martins; 2,822 mink;
106 otter; 67 fisher and 192 bear.

The Canadian champion two year
old Ayrshire heifer, "Princess Be-
atrice," 3rd, owned and bred by the
Nova Scotia Agricultural College,
has another record in supply of milk
and butter fat. From January 12
to March 15 she produced 4,010
pounds of milk, an average of 67
pounds a day. Butter fat was 220
pounds for the same period, equal
to 275 pounds of butter.

Their Majesties King George and
Queen Mary paid a private visit to
the first Exhibition of Paintings
and Sculptures by Canadian Artists
which is being shown in London.
Among the exhibits are pictures by
Leonard Richmond of Lake Moraine,
Lakes O'Hara and Lake Louise,
sketched by the artist during his visit
to the Canadian Rockies last year
with the Trans-Canada.

According to an announcement by
D. C. Coleman, vice-president and
general manager of western line of
the C.P.R., at Winnipeg, the Cana-
dian Pacific Railway is to construct
a hotel of 200 guest rooms on a
downtown site at Regina. This hotel
is being built in response to a re-
quest voiced on many occasions by
representatives of the citizens of
Regina.

Stony Plain and District.

On Wednesday April 21, to the wife of Louis Schoepf, a daughter.

Mr and Mrs D W Pattie, Rocky Mountain House, made a motor trip to Stony Plain on Monday.

The first good ball game of the season was played on local grounds the afternoon of the 25th between Capt. Chessers team and Walther Leaguers. It was a good practice game for each side, and the new players of each club were given a tryout. The game was umpired by Mr Hurvey Umbach in a very satisfactory manner.

Mr Alfred Koch, barrister well known in Stony Plain, having practiced law here for a short time, and later was associated with A W Ebbett, K. C., Vermilion, is now located at Didsbury.

There will be a dance in Holborn Hall tomorrow (Friday) night.

Mr Kulak announces a dance to be held at Rosenthal Hall Monday May 24.

Mr August Burger, a resident of the Holborn district for about a quarter of a century, is starting next week on the erection of a new and palatial residence, the old one having served its purpose since Mr Burger started farming there.

Seeding is now general in this district, with some of the energetic farmers about completing their seeding of wheat. General opinion at present is that we're in for a very good season hereabouts.

Farm help is in great demand in Edmonton, says the Bulletin. Railway, colonization and immigration officials state that the demand for help far exceeds the supply, and this condition is likely to prevail for some little time. With the spring seeding rush and the desire to have land cleared, labor is now at a premium and only those who won't work are out of jobs.

Members of Walther League with ambition and the histrionic gift are planning to produce a play at Wudel's Hall some time in July. Practice has already begun.

Subscribers will greatly oblige by sending remittances by C. N. Express orders.

Death of Mr Valk

Mr M F Valk, an old and respected resident of Stony Plain district, passed away on Saturday, at his home near Edmonton Beach. Deceased had been ill only from the previous afternoon. While walking down Main street he was seen to topple over and was taken to the sitting room of the Royal Hotel by Mr Donaldson, when medical aid was summoned. In the evening he was motored to his home by Mr Speakman.

About a week ago he began the construction of the new implement shed for Mr Speakman, on Second Street, and was making good progress on this, with the aid of a good staff of carpenters.

Mr Valk came to this district from Chicago about 1914, when he was engaged in the construction of bridges the first few years, after which he started ranching north and west of Stony. In the season he was engaged in the construction of dwellings, school houses and barns; was a first-class workman, and his services were much sought after.

To be more convenient to his work, a short time ago he and his wife moved down to the Beach from his residence north. Their son and daughter moved a short time ago to Chicago, where they now reside.

Mr Valk worshipped at the R. C. Mission at Garvel, conducted by the Rev J J O'Halloran.

The funeral took place on Monday, and was largely attended.

Spruce Grove Notes.

Spruce Grove Community Club is planning to erect a new meeting place on the site of the old municipal hall. Work on the foundation is expected to commence any time. The meeting held last Saturday night in the sitting room of Joe Miller's hotel was well attended, evidencing widespread interest in the affair.

Contracts have been let for laying the new sidewalk on Railroad ave.

Garage owners of the district are loud in their denials of the story put in circulation that interested parties were hauling water to the sinkholes on the highway east of the Grove.

Spruce Grove, M. D. meets Monday May 3d.

Mr Argyle, the well-known butcher, is planning a trip to the Land of Heather the coming summer.

Mr S Eccles last week shipped a fine bunch of 3-year-old steers to Edmonton, and received the top price.

Services will be held in St. Joseph's Church on Sunday next by Rev J J O'Halloran, at 10.30 a.m.

A young people's clean-up party at the Lutheran Church grounds Friday evening last did a good job.

Dave Bell, the local garage man, reports a very active demand this spring for Ford cars, with some difficulty in getting the demand supplied.

Amer Anderson, the enterprising general merchant, was in the City Monday, on business.

Calendar.

April 30--Dance in the Holborn Hall.
May 1--Dance in Wudel's Hall.
3--Movie picture at Wudel's Hall.
7--Concert by Walther League in Wudel's Hall.
24--Dance in Rosenthal Hall.
26--Women's Institutes Convention in Calgary.

Stony Plain and District.

Mr Fischer on Saturday sold his restaurant on Main street to Mr Albert Owing of Edmonton, who will continue the business. Mr Owing is a well-known chef, having been employed in some of the best restaurants in the City.

Mr and Mrs Albert Fischer are moving up to the Wudel house, on College Heights, which they will occupy for a short time.

Mr Crawford, the movie man, announces his return to Stony Monday evening next, May 3, with the celebrated picture "Gold Heels," a story of the race track.

There were six cases to come before the local Court on Saturday last, ranging in variety from drunk-and-disorderly to non-support.

Mr Ph. Alt, The Sun's Agricultural Editor, is engaged this week in sowing his experimental patch of wheat, east of town.

A sample of Henry Ford's newest product--a Roadster (sports model) arrived in town last week. It had been ordered for Dr. Walton; is a pretty nifty looking vehicle, with its wire wheels, body in battle-ship grey, and glass wings on the windshield. It attracted considerable attention. Agent Johnny Miller has several more on order.

At the meeting last week of the Executive of the local branch of the Women's Institute it was decided that, owing to the difficulty in getting members to regular meetings, to postpone the holding of these meetings until Autumn. The delegate to represent the local at the convention in Calgary in May has not yet been definitely decided on.

Tomorrow is the last day for filing in your Income Tax returns.

The open season for muskrats ends tomorrow.

TENDERS WANTED.

Painting Peace Lutheran Church building, Spruce Grove. 28' x 42'; two coats on outside, with one coat on steeple and eaves; one coat in inside; color silver gray, trimming white. Painter furnishes material. Lowest or any tender not necessarily accepted. Send tenders to Mr John McAllister, Spruce Grove, Alta., on or before May 6.
